**WARNING:** CSI manufactures a variety of CTS less lethal products which are under pressure, pyrotechnic, incendiary, emit projectiles, generate smoke, or are explosive in nature. When used in accordance with CTS training guidelines and the individual agency's policy, they are intended to cause varying degrees of pain and injury, which are temporary. These products are restricted to law enforcement, corrections, and military personnel and are used to gain compliance, disperse crowds, restore order, or temporarily incapacitate dangerous persons. In rare circumstances, CTS less-lethal products may cause damage to property, serious bodily injury or death. Therefore, any person using the force option depicted on this page should receive proper training to ensure the safest and most effective use.

| Labels Required      | 1.4C Explosive                           |
| Quantity Per Package | 96                                       |
| Total Package Weight | 32 LB                                    |
| Package Type         | 1A2 Steel Drum                           |
| Package Dimensions   | 7 Gal. 12"X19"                           |
| Net Explosive Weight | .22 gm                                   |

\*The Model 4510 and 4550 frangible Impact+ munitions are spin-stabilized projectile and deliver multi-effects of blunt trauma and dispersal of inert or marking powder on and around target. Although it is extremely accurate and consistent, accuracy is dependent on the launcher, using open sights vs. an improved sight, environmental conditions, and the operator. Effectiveness depends on many variable, such as distance, clothing, stature, and the point where the projectile impacts.

**CAUTION:** Shots to the head, neck, thorax, heart, or spine can result in fatal or serious injury.
